While initial responsibilities will focus on technical drawings, this role offers a strong platform to demonstrate **initiative, creativity, and professional skills**, with clear pathways for **advancement into design and project leadership roles**.

Responsibilities

- Produce precise **technical drawings**, plans, and construction documents.
- Collaborate with senior designers to accurately translate design concepts into buildable plans.
- Revise and update drawings based on team feedback and project adjustments.
- Support the team with 3D modeling, renderings, and client presentation materials.

Required Qualifications

- Strong proficiency in **AutoCAD** and technical drafting (**skills will be tested** during the interview process).
- Familiarity with **SketchUp, Adobe Creative Suite, Revit**, or similar modeling and rendering software is a plus.
- Associate's degree or certificate in **Drafting, Architecture, Landscape Architecture**, or a related field preferred.
- Exceptional attention to detail, organizational abilities, and a strong work ethic.
- Positive, proactive attitude with a commitment to learning and growing within a team-oriented environment.

Benefits

- **401(k) Retirement Plan.**
- **Growth opportunities** within an expanding, award-winning firm.
- **Continuous education and professional development through Genesis programs.**
- Mentorship from some of the most respected professionals in the industry.
- Access to prestigious, high-end design projects on an international scale.

Compensation

- **Hourly Rate:** \$18-\$25 depending on experience.
- Performance-based growth and advancement opportunities.
